

MAETTA SYSTEM: AN INTEGRATED APPROACH

- Increased product development capacity and prototyping flexibility
- Reduced time-to-market of products

DESIGN

CUSTOM DESIGNED

- Every product is custom designed
- “From powder to product”, Maetta has the capacity to work at all stages of the PIM process

PROCESS

UNIQUE PIM TECHNOLOGY ALLOWING

- Rapid & high fidelity prototyping
- Significant cost reduction for smaller batch production

EQUIPMENT

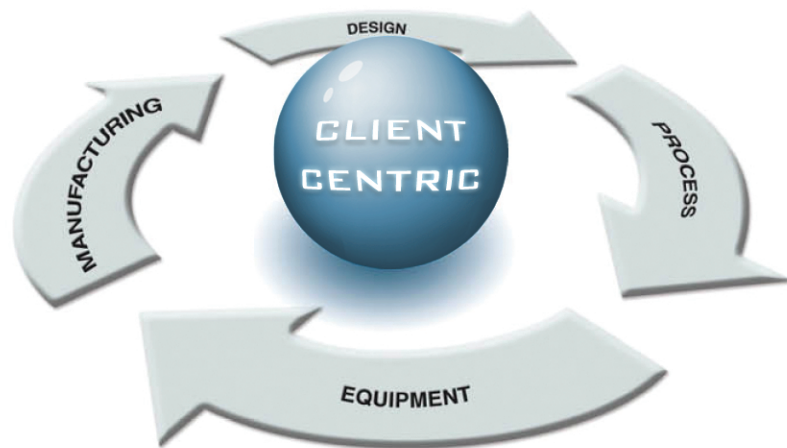

FROM PROTOTYPES TO PRODUCTION PROVIDING

- Rapid turnkey prototyping environment
- Increased flexibility in design through wide range of hardware and process configurations

MANUFACTURING

A STATE OF THE ART FACILITY CERTIFIED ISO 13485:2003 ENABLING

- Low & high volume production

And a customer service team **reliable, experienced, dedicated**
